Beauty Meets Brilliance in Biotech

# Citrus Extract

## Botanical Edge

Citrus gathers its bright Vitamin C, flavonoids, and gentle fruit acids into a natural veil of renewal that uplifts lacklustre skin. It enhances tone, supports collagen's youthful strength, and offers antioxidant grace for a softly illuminated complexion.

Citrus extract is a revitalizing antioxidant complex that protects skin from free radicals and photoaging. Its natural fruit acids refine texture and encourage renewal, while bioflavonoids reinforce microcirculation and elasticity.

### PRODUCT DETAILS

Botanical name: ***Citrus Sinensis L.***

INCI name: ***Citrus Sinensis Peel Extract***

Appearance: **Creamish powder**

Plant part used: **Peel and Fruit**

Recommended dosage range: **1 – 10%**

## Application

Brightening, rejuvenating, exfoliating, and anti-aging formulations.

## Key Features

- Rich in Vitamin C and AHAs
- Boosts radiance and firmness
- Encourages surface renewal

## What It Brings to Your Formulation

- Natural source of stabilized Vitamin C
- Enhances glow-enhancing formulations
- Synergistic compatibility with peptides and antioxidants

## Benefits

- Revitalized, luminous skin
- Smoother surface texture
- Improved firmness and tone
