# Green Coffee Extract

## Botanical Edge

Green Coffee extract delivers energizing and antioxidant bioactivity that revives fatigued skin. Its caffeine and polyphenols stimulate microcirculation, tone, and detoxify, revealing a more refined and awakened complexion.

Coffee-derived actives enhance skin metabolism, reduce puffiness, and neutralize oxidative damage. They support collagen preservation and protect from environmental stress, making it ideal for eye, body-firming, and revitalizing skincare.

### PRODUCT DETAILS

Botanical name: ***Coffea arabica***

Plant part used: **Bean**

INCI name: ***Coffea Arabica Seed Powder***

Recommended dosage range: **1.5 – 3%**

Appearance: **Pale yellow to brown powder**

## Application
