# Pomegranate Extract

## Botanical Edge

Pomegranate extract delivers potent antioxidant and regenerative benefits through ellagic acid and punicalagins. It enhances elasticity, protects from oxidative damage, and promotes cellular renewal for firm, luminous skin.

A bioactive concentrate known for anti-aging and photoprotection, Pomegranate supports collagen synthesis and minimizes inflammation. Its polyphenols provide defense against UV-induced damage and dryness.

### PRODUCT DETAILS

Botanical name: ***Punica granatum***

Plant part used: **Fruit**

INCI name: **Punica Granatum Fruit Extract**

Recommended dosage range: **0.8 – 1.5%**

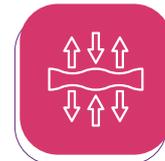

Appearance: **Brown to dark brown powder**

## Application

Anti-aging, firming, and antioxidant skincare.

## Key Features

- Potent antioxidant complex
- Improves elasticity and tone
- Defends against photoaging

Firmness

Radiance

UV Protection

## What It Brings to Your Formulation

- Deep antioxidant synergy with Vitamin C and peptides
- Enhances skin firmness and longevity
- Supports UV protection claims

## Benefits

- Youthful firmness and glow
- Reduced fine lines
- Enhanced protection from oxidative stress
